

Consider the model and/or type of stapler you have (for example: standard, heavy-duty, electric) and the size of paper stacks you typically staple. This will help determine both the size and style of staple you need.

STAPLE SIZES

Size is determined by the leg length of a staple: the greater the number, the greater the sheet capacity.

STAPLE STYLES

Standard
Compatible with most desktop staplers.

Arched Crown and B8
Used in specific staplers. Shape improves holding power.

Heavy Duty
Require specific staplers. Strong construction to penetrate high sheet counts.

Cartridge
Used in electric and heavy-duty staplers. Capacity up to 5,000 staples.
